Enable Powerful Functionality In Adobe Reader

Adobe LiveCycle Reader Extensions cost effectively extend document-based processes to those who only have the free Adobe Reader. Through a special arrangement with Adobe, FormRouter has been empowered to offer Adobe LiveCycle Reader Extensions as a service.

This provides a cost effective alternative for organizations whose scale of use does not justify a full Adobe LiveCycle Reader Extension Server License from Adobe.

With Adobe Reader Extensions, FormRouter can activate usage rights in any PDF form so that users of the free Adobe Acrobat Reader can now:

- Allow files to be saved locally (with form data)
- Add digital signatures
- E-mail filled forms
- Create new pages via templates
- Consume Web services
- Export and import form data
- Take advantage of file attachments
- Add comments and field data
- Submit entire forms to a server

2 Options To Choose From

Per Form Based Pricing

Price based on:

- Number of forms
- Unlimited form utilization
- One time fee (form is unlocked forever)
- Optional maintenance (for form changes)

Best choice when:

You have large high volume forms with unknown users.

Seat Based Pricing

Price based on:

- Number of named users
- Annual maintenance fee (per seat)
- Small per form unlock fee

Best choice when:

You have many forms that will be used within a group of named users. Form example: vendors or internal staff.

Per Form Pricing

What is Per Form Pricing?

Many organizations need to enable Adobe Reader Extensions for unlimited usage one form at a time without installing an Adobe Reader Extension Server. To meet this need, FormRouter offers Adobe Reader Extensions one form at a time as a service.

Example:

XYZ organization needs to have a multi page form Reader Extended for usage with an unknown number of end users. In addition, XYZ organization does not have the IT staff or budget to purchase and install an Adobe Reader Extensions Server. FormRouter can take care of this problem instantly by Reader Extending individual PDF forms on demand.

How It Works

PDF forms are e-mailed to FormRouter. FormRouter enables Reader Extensions in individual PDF forms and e-mails them back. No tracking of form activity is required.

Terms

- One-time fee per form
- Optional annual maintenance fee (allows annual changes to form)
- No tracking of form utilization

Adobe Reader Considerations

- Form users must have Adobe Reader 5.1 or above installed

Seat Based Pricing

What is Seat Based Pricing?

If an organization has a known number of users who wish to use Adobe Reader Extended forms between them, FormRouter can enable PDF forms for utilization within the group as a service.

Example:

XYZ organization has named users inside or outside of their organization who need to take advantage of multiple Adobe Reader extended documents.

XYZ organization does not have the IT staff to install and maintain an Adobe Reader Extensions Server. FormRouter can take care of this problem instantly by Reader Extending individual PDF forms on demand.

How It Works

PDF forms are e-mailed to FormRouter. FormRouter enables Reader Extensions in individual PDF forms and e-mails them back.

Terms

- Seat based price per each named form user
- First year fee (per seat)
- Annual maintenance fee (per seat)
- Unlimited number of forms may be enabled for named users (small unlock fee per form)
- Forms may only be used by names users
- No tracking of form utilization

Adobe Reader Considerations

- Form users must have Adobe Reader 5.1 or above installed
