

We were looking to make registration for our annual ELAN Dealer Summit, TRIO, easy for all of our guests right off our Website. We had a wide variety of needs to capture our attendee's individual information, so we could book hotel rooms, provide name badges and event binders, and ongoing email updates.

FormRouter provided us with all the tools and means to do so. As a result, our guests and staff will enjoy a smooth event and we have a database from which to draw for next year's event.
